

▲ ABOUT THE PROGRAM

The School of Medicine for International Students is a newly established four-year M.D. program (taught in English for Bachelor's degree) in compliance with the government policy that aims to cultivate passionate and devoted international medical professionals for countries that have a diplomatic relationship with Taiwan.

As one of the leading universities in southern Taiwan, ISU provides students with innovative ideas and excellent teaching resources in order to foster them to be well-trained and qualified health professionals. The Program will be carried out in a close partnership with E-Da Hospital, a well-recognized teaching hospital affiliated to E United Group, which has received a full accreditation from the Joint Commission International (JCI), an U.S.-based independent and nonprofit organization and the first Collaborating Center designated by World Health Organization (WHO). Students will be able to not only learn from distinguished professors, doctors and specialists, but also have direct access to state-of-the-art medical facilities, so that the basic medical sciences and the clinical training can be fully integrated.

Advantages to study in ISU:

1. Remarkable advances in medical technology, equipment and facilities
2. A comprehensive university offering a variety of courses
3. A good learning environment with cultural diversity
4. Close partnership with E-Da Hospital and E-Da Cancer Hospital
5. The capability for training foreign medical doctors
6. Active collaboration with other hospitals and Schools of Medicine in Taiwan

▲ ENTRY REQUIREMENTS

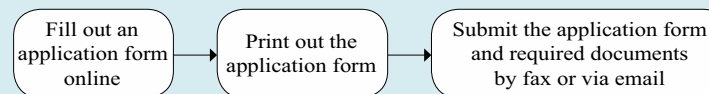

1. Applicants who have a bachelor's degree or above conferred by a local or foreign university recognized by the R.O.C. Ministry of Education may apply for admission; those who have studied at the School of Medicine, Dentistry or Chinese Medicine for four years or more may apply with

credentials of an equivalent education level. The original diploma (or academic credentials) verified by the local R.O.C. diplomatic mission must be submitted upon registration and enrollment (if the diploma (or academic credentials) is in a language other than Chinese or English, a Chinese or English translation verified by the local R.O.C. diplomatic mission or a registered translation agency is required); otherwise, an applicant will be considered disqualified and denied admission.

2. Pursuant to Paragraph 1 of Article 2 in the MOE Regulations Regarding International Students Undertaking Studies in Taiwan, applicants who have a foreign nationality, have never had the nationality of the Republic of China* ("R.O.C."), and do not have an overseas Chinese student status at the time of application may apply for admission.
3. Any matter not mentioned herein should be subject to the MOE Program of Assisting Countries with Diplomatic Relations in Cultivating Medical Talents, the MOE Regulations Regarding International Students Undertaking Studies in Taiwan, and the MOE Regulations Regarding the Assessment and Recognition of Foreign Academic Credentials for Institutions of Higher Education.
4. This Program is open only to students who have never obtained a physician license.
